

SERUMS AND CREAMS – AN ESSENTIAL PART OF SKIN CARE ROUTINE

SERUMS – FACE CONCENTRATES

- EXTREMELY HIGH CONCENTRATION OF ACTIVE INGREDIENTS
- LOW-WEIGHT MOLECULES – PENETRATE THE DEEP LAYERS OF THE SKIN
- DEPENDING ON THE COMPOSITION, THEY PROVIDE HYDRATION, ELIMINATE BLEMISHES, AND/OR REGENERATE SKIN CELLS IN DEEP LAYERS
- WATER-BASED FORMULATIONS – EXTREMELY LIGHT TEXTURE
- APPLIED IN DROPS BEFORE A CREAM
- SUITABLE FOR ALL SKIN TYPES
- COME IN DIFFERENT CATEGORIES TO SUIT YOUR SKIN NEEDS

CREAMS – A BARRIER BETWEEN THE SKIN AND HARMFUL EXTERNAL FACTORS

- CONTAIN A GREATER NUMBER OF ACTIVE INGREDIENTS
- ACTIVE INGREDIENTS ACT ON THE SKIN'S SURFACE AND IN THE SKIN'S FIRST LAYERS BELOW THE SURFACE
- RESTORE THE HYDROLIPIDIC BARRIER OF THE SKIN
- CONTAIN BOTH WATER AND OIL PHASE
- COME IN DIFFERENT CATEGORIES TO CATER TO YOUR SKIN TYPE
- ENHANCE THE ACTION OF A SERUM BY ENSURING COMPLETE CARE AND LEAVE A PLEASANT NOURISHING FEELING ON THE SKIN

ONLY NOURISHED SKIN IS BEAUTIFUL SKIN

BEAUTY

SKINAGE HYDRA BOOSTER

4 types of hyaluronic acid | Provitamin B5 | Matrixyl® 3000*
HYDRATING SERUM

Skinage beauty Hydra booster – deeply nourishes and hydrates the skin, decreases the skin's sensitivity and reactivity, reduces wrinkles, and makes the skin soft and elastic.

It comes in a refreshing water-gel texture and is intended for all skin types. It is quickly absorbed and leaves a pleasant feeling on the skin, with no sticky after-feel. Suitable for use on the neck, face, and décolletage.

SKINAGE RETINAL POWER

Retinaldehyde 0.05% | Hyaluronic acid | Vitamin B3 | Provitamin B5
RESTORING AND ANTI-AGEING SERUM

Skinage beauty Retinal power eliminates blemishes, acne, and hyperpigmentation. It stimulates the renewal of skin cells, reduces wrinkles, and restores the skin's youthful appearance.

Light texture, absorbs quickly and leaves a pleasant feeling on the skin.

The natural mixture of tocopherols ensures the stability of active ingredients.

HYDRA BOOSTER – LIMITLESS HYDRATION

4 types of hyaluronic acid – nourish all layers of the skin. Low-weight molecules penetrate deep into the skin, bind water, prevent its loss from the deep parts of the skin, and provide volume and a hydrated appearance to the skin. They stimulate dermal healing and synthesis of their own hyaluronic acid, reduce the rigidity of collagen molecules, and prevent cracking. Medium- and high-weight molecules restore the hydro-lipidic layer on the skin's surface, hydrate the stratum corneum, reduce the appearance of dehydration lines, smooth the skin's surface, and provide softness and elasticity to the skin.

Provitamin B5 regenerates the skin, stimulates the proliferation of new cells, hydrates, enhances elasticity, and reduces inflammation. It stabilizes the skin barrier by decreasing the skin's sensitivity and irritability and soothes inflammation and redness.

Matrixyl® 3000 peptid – a synergy of two types of peptide molecules developed in France. It promotes skin regeneration and collagen synthesis and restores skin firmness. It increases skin thickness, reduces wrinkles on the face, neck, and décolletage, and provides protection against UV radiation.

HOW TO APPLY:

Apply a few drops of serum on the thoroughly cleansed and moist face and neck. For a better effect, it is recommended to gently massage the serum and then apply a day/night cream on the moist face.

A POWERFUL COMBINATION OF 0.05% RETINAL, VITAMINS B3 AND B5, AND HYALURONIC ACID

Retinal – an anti-aging ingredient

The natural and most potent form of vitamin A. It accelerates the cell renewal process, the shedding of dead skin cells, and the synthesis of new ones.

It penetrates the deep layers of the skin, reduces inflammation, and has an antibacterial effect. The results are reduced sebum secretion, reduced formation of new acne and hyperpigmentation, and the elimination of existing ones. **Retinal works up to 11 times faster than retinol.** It promotes an even complexion and radiant skin, smoothes skin texture, and is proven to reduce wrinkles. It stimulates collagen synthesis in the deep layers of the skin by making them more compact and increasing their thickness.

Vitamin B3, also known as niacinamide, is a molecule that penetrates deep into the skin. It regenerates skin cells, minimizes enlarged pores, removes unwanted oily shine, reduces acne and hyperpigmentation, and visibly restores a clean complexion. Retinal and niacinamide are responsible for the elimination of blemishes and the anti-aging effect of Retinal power serum.

Hyaluronic acid and provitamin B5 nourish and hydrate deep parts of the skin as well as its newly formed cells. They reduce the possibility of skin irritation caused by the shedding of old skin cells.

HOW TO APPLY:

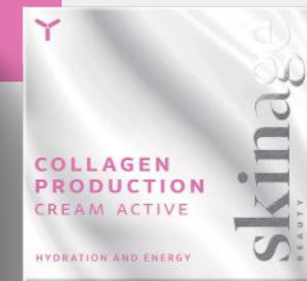

Apply a few drops of serum on the thoroughly cleansed and moist face and neck. The concomitant use of other retinoids, acids, or similar active substances is not recommended. Use a sunscreen during sun exposure.

SKINAGE COLLAGEN PRODUCTION CREAM ACTIVE HYDRATION AND ENERGY

For young skin suffering from lack of sleep, stress, and harmful effects of radiation.

For skin that leads a dynamic life-style of modern-day women..

Dawnergy™ peptide awakens and energizes the skin early in the morning and allows it to follow the busy rhythm of the day.

WITH DAWNERGY™ PEPTIDE

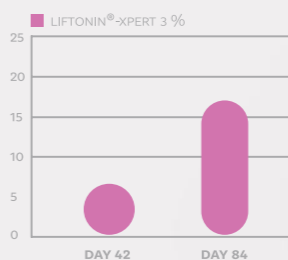

FULLY ACTIVATED SKIN 7:00

SKINAGE COLLAGEN PRODUCTION CREAM INTENSE NATURAL BOTOX EFFECT

For mature skin requiring nourishment and help with collagen synthesis.

It solves difficulties with maintaining moisture in the skin, unpleasant feelings of tightness, irritation, and visible signs of dehydration.

REDUCTION OF WRINKLES
COMPARED TO THE INITIAL STATE (%)

AWAKEN YOUR SKIN FROM SLEEP AND GIVE IT THE ENERGY OF THE DAY

It contains innovative molecules **LIFTONIN®-XPERT ECO & Dawnergy™ peptide:**

- Activate fibroblasts.
- Clinically proven to stimulate collagen synthesis.
- Reduce the visibility of wrinkles.
- Enhance skin elasticity.
- Stimulate energy synthesis and microcirculation.

Clinically proven to reduce the volume of under-eye bags and hide the signs of lack of sleep.

With the addition of hyaluronic acid, it deeply hydrates and nourishes the skin and provides a fresh look throughout the day.

HOW TO APPLY:

Apply to face and neck twice a day.

IT MAKES UP TO THE SKIN FOR EVERYTHING LOST.

**DIFFICULTIES WITH MAINTAINING MOISTURE
UNPLEASANT FEELING OF TIGHTNESS
SUSCEPTIBILITY TO IRRITATION
VISIBLE SIGNS OF DEHYDRATION**

Yasenska Skinage Collagen Production Cream Intense – a combination of highly concentrated active ingredients.

LIFTONIN®-XPERT ECO + ARGIRELINE™ PEPTID + hyaluronic acid = nourished skin without wrinkles

LIFTONIN®-XPERT ECO

A high concentration of liftonin increases collagen density in the dermis and smooths even deep wrinkles.

ARGIRELINE™ PEPTID – an innovative peptide mimicking the action of botox. It works on multiple levels: reduces the appearance of wrinkles, fills in fine lines, and tightens the skin by restoring its elasticity. Natural and safe for a quick and effective solution to wrinkles.

Hyaluronic acid

It deeply hydrates the skin. It reduces the susceptibility of mature skin to irritations.

HOW TO APPLY:

Apply to face and neck twice a day.
