ELEGANCE

Healthy skin, of smooth and soft texture, without blemishes and a dull look, is the ideal for which all modern-day women strive. Aging, a hectic pace of life, stress, sun, and unbalanced diet slowly but surely leave a mark on the skin causing premature skin aging and inflicting damage on all skin layers. The result is dry, dehydrated, tired-looking skin with visible wrinkles and a lack of elasticity.

20+

FREE RADICALS ATTACK DAMAGE CAUSED BY EXTERNAL FACTORS

Constant sun exposure, unhealthy diet, and a fast pace of life lead to premature skin aging. The amount of hyaluronic acid in the skin is reduced.

30+

APPEARANCE OF SIGNS OF AGEING, SAGGY, LIFELESS SKIN, FINE LINES

Regeneration is slowed down, which leads to rough skin texture. There is less and less elastin in the skin, therefore the signs of aging - fine lines and slightly loosened skin - appear. Adequate skin care is extremely important.

40+

APPEARANCE OF DEEP WRINKLES, SAGGIER SKIN, APPEARANCE OF SPOTS, SENSITIVE SKIN

The skin becomes thinner, which leads to skin sensitivity, redness, and dryness. Age spots occur more frequently.

50+

EXTREMELY LOOSE SKIN, LACK OF HYDRATION, DEEP WRINKLES

The skin becomes thinner, and the protective barrier weakens; the synthesis of collagen, elastin, and hyaluronic acid is significantly reduced. As a result, the skin becomes extremely dehydrated, saggy with deep wrinkles and is more prone to changes.

IN ORDER TO RESTORE BALANCE TO THE SKIN AND RETAIN ITS SMOOTH AND HEALTHY LOOK, THE RESTORATION OF BUILDING ELEMENTS AND ENERGY IS NECESSARY
