STRESS + SUN + IMPROPER DIET + AGEING

REDUCED SYNTHESIS OF COLLAGEN,
HYALURONIC ACID AND
APPEARANCE OF WRINKLES

ATTACK OF FREE RADICALS
DAMAGE CAUSED BY EXTERNAL FACTORS

Constant sun exposure and unhealthy diet and fast pace of life lead to premature skin ageing.

APPEARANCE OF FIRST SIGNS OF AGEING
SAGGY, LIFELESS SKIN, FINE WRINKLES

Regeneration is slowed down, which leads to rough skin. Elastin in skin is decreasing, causing the appearance of first signs of ageing, fine lines and saggy skin. Adequate daily and night skin care is extremely important.

APPEARANCE OF WRINKLES, SAGGIER SKIN
APPEARANCE OF PIGMENTATION,
SENSITIVE SKIN

Skin becomes thinner, which leads to sensitive skin, redness, dryness. Age spots appear more often.

EXTREMELY SAGGY SKIN, LOSS OF
HYDRATION, DEEP WRINKLES

Skin becomes thinner, and protective barrier weakens. The result is drier skin, deeper wrinkles, sagging skin more prone to changes. Everyday hydration is necessary.

COLLAGEN

MOST COMMON PROTEIN IN OUR BODY

BUILDS SKIN, HAIR AND CONNECTIVE TISSUE

GIVES FIRMNESS AND FORM

BINDS WATER

AFTER THE AGE OF 25, COLLAGEN SYNTHESIS DECREASES FOR 1.5% ANNUALLY

APPEARANCE OF WRINKLES, DRY SKIN, BRITTLE AND DULL HAIR

HYALURONIC ACID

BINDS AND ABSORBS WATER

NOURISHES AND HYDRATES COLLAGEN

1 g OF HYALURONIC ACID = 6 LITRES OF WATER

ZINC

BINDS AND ABSORBS WATER

NOURISHES AND HYDRATES COLLAGEN

1 g OF HYALURONIC ACID = 6 LITRES OF WATER

B COMPLEX VITAMINS

B2 PROTECTS SKIN FROM BREAKING

B3 HELPS WITH DRY AND INFLAMED SKIN

B5 MOISTURISES SKIN AND HELPS PREVENT PROBLEMATIC SKIN

BIOTIN PREVENTS SKIN FLAKING

MANGANESE

CONTRIBUTES TO PROTECTION OF CELLS AGAINST OXIDATIVE STRESS

CONTRIBUTES TO NORMAL FORMATION OF CONNECTIVE TISSUE

NATICOL HYDROLYSED COLLAGEN

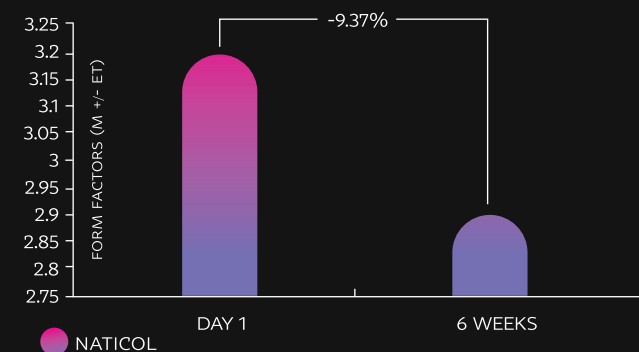

With ageing, the ability of the body to produce collagen and hyaluronic acid decreases, leading to reduction of skin elasticity and suppleness and eventually results in wrinkles. Intake of **SKINAGE COLLAGEN PRESTIGE** ensures additional collagen and hyaluronic acid in the body.

It is clinically proven that the intake of 10 g of **Naticol** hydrolysed marine collagen during **6 weeks** decreases the appearance of wrinkles and improves skin tightness. Combination of ingredients which ensures faster regeneration of your skin, protects the cells against oxidative stress, reduces wrinkles and restores youthful appearance. Liquid form of collagen ensures faster absorption and better utilisation, which contributes to the beauty of your skin in the long term.

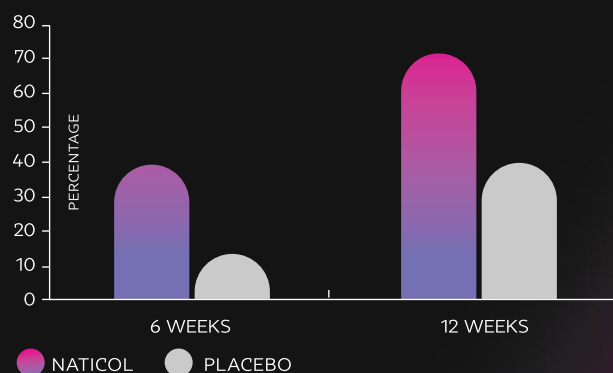

CLINICAL STUDIES FOR NATICOL HYDROLYSED COLLAGEN:

Skin relief

Twice as powerful dose for twice as fast effect

NATICOL 10 g IS PROVEN TO REDUCE WRINKLES* AFTER JUST 6 WEEKS OF USE

COLLAGEN PRESTIGE

10000

- ⊕ 1000 mg OF COLLAGEN
- ⊕ HYALURONIC ACID
- ⊕ B COMPLEX VITAMINS
- ⊕ VITAMIN C
- ⊕ MANGANESE
- ⊕ ZINC

NATICOL HYDROLYSED COLLAGEN

CONTAINS A HIGH PROPORTION OF ESSENTIAL AMINO ACIDS IS PROVEN TO HAVE EFFECT ON THE "ANTI-AGE" PROCESS INCREASES SKIN TIGHTNESS AND ELASTICITY ENCOURAGES NATURAL SYNTHESIS OF COLLAGEN IN THE FIBROBLASTS

HYALURONIC ACID 100 mg

BINDS AND RETAINS WATER IN SKIN CELLS ENCOURAGES COLLAGEN PRODUCTION ENABLES SKIN TIGHTNESS AND HYDRATION

MANGANESE, ZINC, VITAMIN C

VITAMIN C IS NECESSARY FOR COLLAGEN SYNTHESIS PROVIDE ENERGY FOR CELLS, PROTECT SKIN AGAINST OXIDATIVE DAMAGE
